

Amendment to Specification

Please replace paragraph [0031] with the following amended paragraph:

[0031] With reference to Figures from 1 to 4, an apparatus 1 for making knitted garments 60 starting from a knitted raw tubular portion 3 comprises a tubular support 2 capable of rotating about an electronically controlled axis 102. In particular, the knitted raw tubular portion 3 is put ~~on~~ around tubular support 2 for being then subject to at least one operation, for example a cutting step as in the case shown in Figures from 1 to 4.
